PROFESSIONAL SUMMARY

For over a decade I have been providing industry leading Development and Design services for all types of businesses. My strong commitment to Scrum and the Agile Methodology has transformed me into a highly creative problem-solver with a track record of developing innovative solutions that helped many products successfully make it to market. I am known for doing whatever it takes to get the job done right, on-time and on budget.

WORK EXPERIENCE Cont..

CodeMedia 360

12/2013 – Present

UI/UX, Front End Developer, Project Manager

- Conceptualized entire projects all the way through the discovery and design phases.
- Designed websites in Balsamiq, Photoshop and Illustrator and prepped those websites for our backend development team. I was also in charge of making sure what the client approved in the design phase was created exactly to spec with our backend developers.
- Developer an Enterprise Resource Planner that ran over 40,000 orders a month.
- Expert user of web analytics software including Google analytics and interpret web analytics reports to make specific actionable recommendations to clients.
- Designed and Built E-commerce website campaigns from beginning until end.

Noval Media

08/2013 – 06/2014

UI/UX, Front End Developer, Project Manager

- Designed and developed websites in HTML, CSS, PHP, and JavaScript.
- Designed websites in Balsamiq, Photoshop and Illustrator and prepped those websites for our backend development team. I was also in charge of making sure what the client approved in the design phase was created exactly to spec with our backend developers.
- Wrote detailed syntax for key modules, plugins, and extensions for web campaigns.
- Expert user of web analytics software including Google analytics and interpret web analytics reports to make specific actionable recommendations to clients.
- Redefining mobile product strategy -- Launched native iOS & Android E-business mobile phone apps.

XWEBSEO

09/2009 – 08/2013

UI/UX, Front End Developer, Project Manager

- Designed and developed over 100 websites using HTML, CSS, PHP, and JavaScript.
- Implemented Magento Community Edition with thousands of products and dynamic attributes.
- Established custom shopping cart rules, shipping and tax calculations for Magento.
- Employed new marketing strategies to improve sales.
- Coordinated tasks for over fifteen employees.
- Ran weekly payroll weekly for all staff.
- Interacted with clients on a daily basis.

AM Trucking

06/2003 – 12/2010
